DETAILED ACTION

1. The following is a Notice of Allowability upon examination of the above-identified application on the merits. Claims 1-8 are pending in this application.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION:

Page 1 before line 1 and after the title, inserted --BACKGROUND OF THE
INVENTION--.

Page 1 before line 1 and after the background subtitle, inserted --Field of the
Invention--.

Page 1 between lines 2 and 3, inserted --Description of Related Art--.

Page 4 lines 23, inserted --DETAILED DESCRIPTION OF PREFERRED
EMBODIMENTS--.

IN THE CLAIMS:

Page 4 line 1, deleted "coil" and inserted --coil current--.

REASONS FOR ALLOWANCE

3. Claims 1-8 are allowed.
4. The following is an examiner's statement of reasons for allowance:

As per claim 1, the prior art of record taken alone or in combination fails to teach that the maximum absolute value of the coil current (I_L) is lowered when said parameter exceeds a given value in the operational state.

As per claim 8, the prior art of record taken alone or in combination fails to teach the maximum absolute value of the coil current is reduced when said parameter exceeds a certain value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Priority

5. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

6. The listing of references in the Search Report is not considered to be an information disclosure statement (IDS) complying with 37 CFR 1.98. 37 CFR 1.98(a)(2) requires a legible copy of: (1) each foreign patent; (2) each publication or that portion which caused it to be listed; (3) for each cited pending U.S. application, the application specification including claims, and any drawing of the application, or that portion of the application which caused it to be listed including any claims directed to that portion, unless the cited pending U.S. application is stored in the Image File Wrapper (IFW) system; and (4) all other information, or that portion which caused it to be listed. In addition, each IDS must include a list of all patents, publications, applications, or other information submitted for consideration by the Office (see 37 CFR 1.98(a)(1) and (b)), and MPEP § 609.04(a), subsection I. states, "the list ... must be submitted on a separate paper." Therefore, one reference cited in the Search Report has not been considered. Applicant is advised that the date of

submission of any item of information or any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the IDS, including all "statement" requirements of 37 CFR 1.97(e). See MPEP § 609.05(a).

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following references are cited to further show the state of the art with respect to coils with temperature compensation means in general:
